

# Employee engagement data that goes beyond surveys.

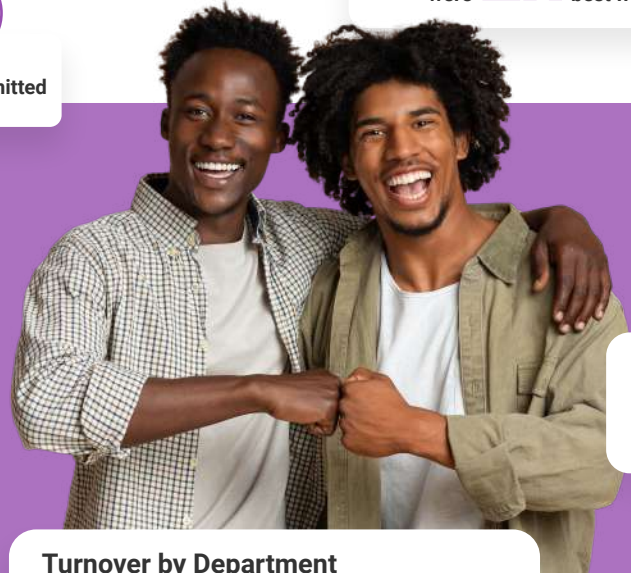

Understand employee sentiment...and then do something about it.

Motivosity is your solution for all of the engagement information you need about your employees. Confidently bring essential data and insights to executives and make sure HR has a seat (and a voice) at the table.

Employees were **2x** as likely to have a best friend at work.

Surveys Submitted

### Turnover by Department

### JobNimbus

"The insight and intelligence that Motivosity produces are game-changing in my quarterly meetings with the board. I can clip out a chart and show real data on our company culture and employee experience."

Jared Olsen | VP, People Experience

## Core Capabilities

### MV6 Engagement Survey

No more annual surveys. The MV6 is your new automated employee sentiment survey that helps you identify – and act on – trends quarterly.

### Turnover Data

You need clarity around turnover? We've got it. Employee Insights with Motivosity make it easier to track turnover, look at trends, collect exit interview information, and even see improvement in retention over time.

### Custom Pulse Surveys

Need a quick pulse check on your employees? Need to see preferences within your team? Customize your own surveys and push them out to anyone you want. You can even offer a few extra dollars for completion of the survey to make sure you are getting each and everyone's "buy-in".

### Behavioral Data

Track engagement on Motivosity's platform and understand when employees are being appreciated, if they're completing priorities and having 1 on 1's with their manager. Add to survey data and you'll finally get a more complete picture of your workforce.
