

Putting rewards programs in the hands (and pockets) of your employees.

The most flexible rewards program you'll ever experience

Let your employees be rewarded on their own terms whether that means a cup of coffee, a tank of gas, or a new surfboard – they have the power to choose. Since Motivosity uses dollars instead of points, the ThanksMatters Card takes 'meaningful rewards' to another level.

Through appreciations, spot recognitions, milestones, and more, employees can watch their spending balance grow and decide exactly how they want to spend it. Anytime your team members need to spend money, they'll already have the ThanksMatters card in their pocket.

"I already love everything about Motivosity, but the ThanksMatters card is a 1,000% upgrade. It means I can use my rewards for literally anything, anywhere."
